

# Satellite Radio and Television

## **Communication made easy**

Break out of the media box with your own, satellite delivered, live automated radio or television station. Talk to AirMedia, whose experience in both media operations and technical and operational integration, allows you to control your in-store or corporate environment.

AirMedia Broadcasting (Pty) Ltd, started in 1999, provides in-store radio and TV services to retail chains in southern Africa. We also produce radio and TV content and supply, finance and maintain all equipment in stores.

Our services are aimed primarily at large retail chains (Edgars, Jet, CNA, etc.) and we also assist clients to communicate with geographically dispersed staff (Harmony Gold Mines). Clients with 30 or more outlets around South Africa are ideal candidates to benefit from our services.

## **Proven results**

Jet, Legit, Harmony Gold and Teba Bank are just four of our highly successful communication channels.

## **Professional facilities**

We have our own production facilities where your channel's content is professionally created and . Your content is then broadcast by satellite from one of our radio or television studios by professional DJs or VJs (video jockeys) dedicated to your channel.
